Working Schedule is for Day to Day Operations

You Load your Master Schedule into your Working Schedule. A typical scheduling period is 3 to 6 months but it can be shorter or longer. *SpeedShift* recognizes conflicts for training, court, off-days, etc. The Working Schedule becomes your reference for your day to day changes and activities. Use the wide range of options available to customize and color-code your entries.

Log Book Free when you buy SpeedShift

InTime Log Book is a handy day planner and organizer. Enter watch notes, check the perpetual calendar and insert reminders for upcoming events. It has full text editor capabilities plus powerful Search capabilities for finding key entries. But best of all, this handy tool is Free when you buy *SpeedShift*.

The Master Schedule is Key To SpeedShift's Power

Think of your Master Schedule as the Plan. Plan for a year (shorter or longer if you wish). Set your shift patterns & rotations. Assign your officers. Check On-Duty totals. Adjust staffing levels by adjusting rotations and off-days.

Full Year or Single Shift at a Glance

See and edit an officer's entire schedule for a full year in both Master and Working Schedule.

Zoom-in and edit info for a single day.

New Report Designer is Lightning Fast

Create your own custom reports and get detailed information and notes for all or any officers for any day or scheduling period. You can create sick day, court day, FLSA, overtime - all kinds of reports. Design and print Daily Schedules the way you want. Choose your own style and fonts, add color - even publish on the Internet.

Tracker Counts Time - Even Comp Time

This new tool is so powerful that you're going to start thinking of your old job as BT (Before Tracker). Tracker counts time in days and/or hours. Track Sick, Special Duty and Training days. Track Vacation, Court time, Overtime, Comp time and more. Track it over a defined period. Track it for individuals. Track it for a team. Set a start day and Track time over 28 day FLSA periods. Track total work days in a year. Track it in the Master Schedule (great for designing schedules!). Track it in the Working Schedule. But more than that, Tracker adds Earned days. So if an officer wants to take vacation days for a period months from now, all you need to do is enter the date and Tracker will give you the accurate net time due to the officer.
